NUTRA QUERCETIN

NUTRA QUERCETIN is a dietary supplement containing Quercetin from *Sophora Japonica* (Japanese Acacia) and vitamin C from *Rosa canina*.

Glass bottle of 120 tablets.

1 cpr = 100 mg Quercetin + 40 mg vitamin C

NUTRA QUERCETIN is a dietary supplement based on Quercetin from *Sophora Japonica* (Japanese Acacia) and C vitamin from *Rosehip*, which contributes to the normal function of the immune system and the protection of cells from oxidative stress.

Quercetin is a flavonoid, naturally present in a wide variety of fruits and vegetables.

It is also possible to find significant levels of this in some medicinal plants.

Quercetin is known for its power:

- Antioxidant: it reduces the formation of free radicals.
- Anti-inflammatory- Antiallergic- Immunomodulating: it reduces the inflammation at the mast cell level, resulting in the inhibition of histamine release, and it decreases the amount of pro-inflammatory cytokines.
- Antiviral: it provides zinc to cells, counteracting viral replication.
- Anticancer: it reduces the risk of cellular alterations.

Combined with C vitamin, Quercetin increases its bioavailability and its anti-inflammatory-antioxidant action.
